

Biomedical Engineering Summer Course 2023

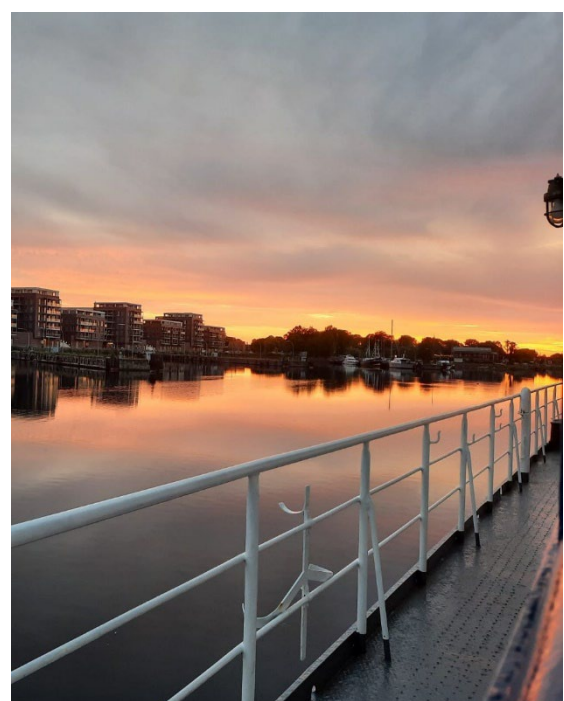

Júlia from Brazil

I'd like to thank you all for the great experience in Germany.

For the next students that want to go to Jade in the summer course, I would like to say that it will be one of the most life changing experiences that you will probably have.

I made a lot of new friends from different countries, and learned a lot about their cultures while we lived together in the boat.

Wilhelmshaven has a really cozy atmosphere, the local residents were very polite with us even if we do not speak German and the university has an amazing structure.

Originally, I was not assigned to the lane that I did, but the way that the course is made makes me enjoy my trip a lot.

So, I can say that I am not the same as who I was when I arrived there, thank you for the opportunity.

I hope to be back soon :)
