

Department of Maritime and Logistic Studies

How to apply for International Maritime Management via uni-assist

You can start your IMM studies twice a year. Our semesters begin in March and in September, but you can contact us at any time. As international student you can apply

- for the summer semester (starting in March) from 1 October until 15 January.
- for the winter semester (starting in September) from 1 April until 15 July.

As certificates, regulations and documents vary widely among different countries, we use the services of a third party called 'uni-assist', where experts for every country of origin take care of your documents.

Please apply for International Maritime Management by following the next three steps:

- Get information on how to apply via uni-assist [here](#),
- Register and complete the online application [here](#) and
- Transfer the service fee of EUR75 as per the information given [here](#).

Jade University of Applied Sciences accepts online-only applications for uni-assist's pre-check. Therefore, simply submit your documents online as uploads (pdf-files) only.

Please do not forget to sign your application.

Your application will be processed as soon as the above mentioned steps have been completed. Please consider a processing time of about four to six weeks (see current processing times [here](#)). Therefore, we strongly recommend to apply rather earlier than later.

Once uni-assist has received your documents and evaluated them, they will send your data to the matriculation office of Jade University. We will then inform you about the next steps.

When searching for International Maritime Management, please choose “Jade University of Applied Sciences (Campus Elsfleth)”. It has formerly been listed as “Wilhelmshaven/Oldenburg/Elsfleth, Jade Hochschule” (German language; see figure below) which means “Jade University of Applied Sciences Wilhelmshaven/Oldenburg/Elsfleth” in English. We have faculties at three different locations; Wilhelmshaven is the main location of Jade University. However, International Maritime Management refers to the maritime faculty which is located in Elsfleth.
