

## Biomedical Engineering Summer Course 2023

Mizael from Brazil

Wilhelmshaven is a very beautiful city.

I really like staying there for the Summer Course. It was a unique experience, I could learn a lot about my course, Biomedical Engineering, that I really like, and all the people that I met and the culture exchange was wonderful.

All the people that I met were unique in their own way, I made some good friends and learn more about others countries.

And of course, I could learn a more about the German culture, something that I really enjoyed.

I would recommend this experience to everyone who have the opportunity and I would like to thank everyone responsible in the organization of the Summer Course.

Danke schön!
